

LOUIS

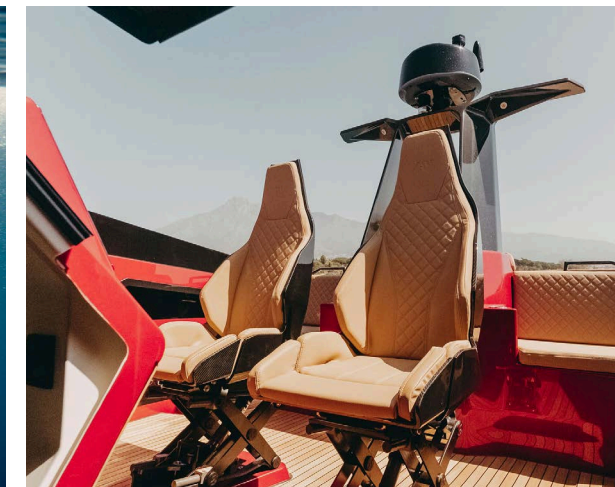

YACHTING

Our carbon fiber ultra-low-emission 8V high speed 42 knot red yacht is a statement of elegance, luxury, and sustainability. With two certified ultra-low emissions V8 engines, our yacht consumes up to 50% less fuel compared to conventional motor yachts without compromising on performance.

It is equipped with a digital cabin, Seakeeper.2 stabilizer and an owner's cabin with a fully fitted bathroom.

Experience the future of sustainable navigation.
